DETAILED ACTION

Claim Objections

1. Claims 9-11 are objected to because of the following informalities: There are no method steps recited in the method claims. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear how an annular space is perforated. It is also unclear what the annular space is perforated simultaneously with.
- 4. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 5. Claim 14 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It is unclear how the solid material transforms into a gas when the annular space is perforated.

Art Unit: 3672

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson et al. (USP 5,318,128).

With respect to claims 12 and 13, Johnson et al. discloses a casing permanently installed into a well, a portion of the casing comprising an inner pipe (12), an outer pipe (10) and two end subs (14, 16) disposed at each end portion of said inner pipe and outer pipe, the inner pipe, outer pipe and end subs defining an integrated annular space (30) comprising a well stimulating medium (V), wherein the well stimulating medium is a fluid having a pressure substantially lower than the pressure in the formation surrounding the annular space (wherein the vacuum has a lower pressure), and wherein annular space is capable of being perforated simultaneously (wherein the annular space is capable of being perforated).

Allowable Subject Matter

- 8. Claim 8 is allowed.
- 9. Claims 9-11 would be allowable if rewritten or amended to overcome the claim objection(s), set forth in this Office action.

Application/Control Number: 10/539,676

Art Unit: 3672

Response to Arguments

10. Applicant's arguments and amendments with respect to claims 8-14 have been sufficient to overcome the previously cited prior art. However, as noted above, the claims are not in condition for allowance. Applicant's amendments necessitated this new grounds of rejection and thus this action is made final.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

12. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Nicole Coy whose telephone number is 571-272-5405.

The examiner can normally be reached on M-F 7:30-5:00, 1st F off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, David Bagnell can be reached on 571-272-6999. The fax phone number for

the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a

USPTO Customer Service Representative or access to the automated information

system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
